<https://portfolio-kappa-wine-74.vercel.app/>

Enthusiastic and detail-oriented Frontend Developer with a strong foundation in HTML, CSS, JavaScript, React.js, Express.js and Node.js. Passionate creating responsive, user-friendly web interfaces and bringing modern UI/UX designs to life. Eager to contribute to a collaborative team and grow as a full-stack developer in a fast-paced environment.

### Experience

#### COUNTRY DETAILS FINDER

[visit](#)

- Developed a responsive Country Finder web application using React.js and Tailwind CSS.
- Integrated REST Countries API to fetch real-time country data such as population, region, capital, languages, and flag.
- Implemented search functionality to find countries instantly based on user input
- Designed a clean, mobile-friendly UI using Tailwind utility classes.

#### MOVIES FINDER WEBSITE

[Visit](#)

- Built a fully responsive Movie Finder web application using React.js and Tailwind CSS.
- Integrated third-party Movie API (OMDb/TMDB) to fetch real-time movie data including title, poster, rating, and release year.
- Implemented search functionality to instantly find movies based on user input.
- Designed clean and modern UI screens using Tailwind utility classes for better user experience.
- Used React hooks (useState, useEffect) to manage API calls and state updates efficiently
- Deployed the project using Vercel/GitHub Pages for live access

#### PORTFOLIO WEBSITE

[Visit](#)

- Developed a fully responsive personal portfolio website to showcase projects, skills, and achievements.
- Designed a modern, user-friendly UI using Tailwind CSS for fast and clean styling.
- Implemented smooth navigation and interactive sections like Projects, Skills, About, and Contact.
